SENSATION IN WHEAT PIT.

Chicago, Ill., July 25.—Accompanied by considerable excitement and heavy trading, corn jumped 4 1/2 cents on the board of trade today. Hot winds and generally dry weather and official predictions that these unfavorable conditions would prevail at least another week were the reasons for the advance. Heavy damage has already been reported from the drought and heat with predictions of utter ruin of crops in some points if conditions continue. Trading was on a huge scale and excitement was at a higher pitch than at any time this season.
